

## 2015 Product Line Card

### Where Cutting-Edge Meets Critical Need

Understanding the complexities of the healthcare market is instrumental in driving revenue in that industry. Intelligent Technology Solutions recognizes the value of providing our client partners with go-to-market solutions that are easy to implement, contain costs, and improve overall quality of care. We are dedicated to helping you succeed by:

- Equipping you with leading technology solutions that revolutionize medical practice
- Educating you on industry news and solutions
- Enabling you to meet industry standards and compliance regulations

Whether you're just breaking into this market or growing an established healthcare business, Intelligent Technology Solutions' unique combination of assessment and strategic planning services, hardware applications, and software support tools provide everything you need. We offer a host of revolutionary healthcare solutions, including:

- Regulatory Compliance Solutions from leading manufacturers such as: Perimeter e Security, DS3 Data vaulting, Ipswitch, and more
- Mobility Solutions that improve quality of care in every healthcare organization, including: Ergotron, Ruckus Wireless, Motion Computing, Fujitsu, Panasonic, and more
- Electronic Medical Records (EMR) that deliver unbeatable solutions with products from Allscripts
